---

Welcome to a world of serene Nordic landscapes. Find yourself lost in mist that envelops forests, mountains and the sea. Be absorbed by a storm rolling in, or evening light that beckons for stillness. These one of a kind artworks all share a minimal but emotive palette, and an atmosphere of tranquility and presence.

With ample water, slow, subtle layers of paint application lend the pieces transparency and depth. There is intentional space left for your own experience, your emotions, your memories and connections. This is art that both fills you up, and allows your mind to wander among Northern lands older than time.
